## Neighborhood Homes

Be a part of the evolution, reserve your Neighborhood Home at Jeffrey Place.

*Design your home, evolve your life.*

The neighborhood homes at Jeffrey Place offer you the opportunity to customize your home while still enjoying the sophisticated lifestyle of a historic urban neighborhood.

Nestled against a lush park, these elegant single-family detached homes create the heart of Jeffrey Place. The neighborhood homes at Jeffrey Place fuse the quality and practicality of a new construction home with the authentic style and charm of historic Italian Village. Build your home around your life by choosing the features and style that inspire you. These custom homes stand apart with options such as finished basements, first floor master suites, glass walls opening to private gardens and rooftop terraces with stunning views of the Downtown skyline. From traditional Victorian designs with details such as front porches, turrets and open belvederes to edgy contemporary homes with walls of glass and rooftop sky boxes your style dictates.

Each lot has a private lawn and is just steps away from any one of Jeffrey Place's neighborhood parks. New public streets, sidewalks, and public art easements surround homes in a perfect blend of fashionable convenience. The shops and restaurants of Jeffrey Place are a short stroll away and the neighborhood's idyllic location puts you minutes from Short North galleries and the entertainment destinations of the Arena District.

It's your life, live it well. Come to Jeffrey Place and be moved.

Reserve your lot and begin conceptualizing your new home today. Neighborhood homes
